

ST. LOUIS PARK SCHOOLS  
TITLE I PROGRAM

Dear Parent(s)/ Guardian,

Each fall classroom teachers notify the Title I staff of students who could benefit from Title I supplemental mathematics help. We are carefully considering the needs of each student to establish the best possible learning program for your child.

Title I classes will begin the first week of October. Students eligible for supplemental help will work with a Title I teacher in small groups for 30 minutes four days per week.

Your child's fall conference will enable you to ask further questions, as well as see all test results. The classroom and Title I teachers together will be your source of information.

If you have any questions, please call your child's classroom teacher or Title I teacher.

Sincerely,

---
