“
...we believe in
creating a better
world by inspiring
all students to
reach their full
potential...
”

At St. Louis Park Public Schools, we create a supportive, engaging environment where students become their best selves. We listen and see value in each of our students. Our students grow as racially conscious, globally minded people, and we believe in creating a better world by inspiring all students to reach their full potential. When students feel heard, seen and valued, they can do their very best work.

That is what we hope to do for your kindergartener, and we want you and your student to feel prepared for the next chapter. Learn more about our school community at a series of informative events where you will have an opportunity to meet the principal, interact with teachers and learn more about our inclusive teaching style.

Sincerely,

Astein Osei, Ed.D.
Superintendent
