

## District Office - Business Office - Simply Gmail

### Simply Gmail

#### Why?

- We are a Google Apps for Education district. Moving to Gmail is a logical next step to this free, cloud-based service.
- All SLP employees and students have Gmail accounts - 79% SLP staff are already active users
- More integrated communication and collaboration through Google documents, including shared calendars

### Simply Gmail

#### How?

- Currently in progress, test accounts are being migrated
- In July, all accounts will be migrated to new platform but will have same address (i.e. @slpschools.org)
- Information Services will orchestrate technical aspects of the migration, and key staff will respond to questions at sites and departments

### Simply Gmail

#### Who can help?

- [Google Apps for Education](#)
- [Frequently Asked Questions FAQ](#)
- Technology Help Desk at 952-928-6080
  - My account is not active
- Business Office
